

Presentation at the tumor board

Information and consent

Last Name: _____ First Name: _____ Date of Birth: _____

Dear Patient,

With funding from the Hubertus Wald Foundation, clinics and institutes at the UKE have joined forces to form the University Cancer Center Hamburg (UCC Hamburg), a cancer center dedicated to improving prevention, diagnosis, treatment, and follow-up care for cancer patients. In 2024, German Cancer Aid (Deutsche Krebshilfe e.V.) once again designated the UCC Hamburg as a Center of Excellence in Oncology.

The goal and commitment of UCC Hamburg is to provide you with the best individualized recommendations regarding diagnosis and treatment based on the latest medical knowledge and to make decisions together with you in this regard. To this end, various professional groups and specialties (oncology, surgery, urology, radiation therapy, psychology, and radiology) collaborate in regular tumor board meetings. These meetings can include up to approximately 30 people in total, as medical residents and documentation staff are also present. Doctors from urology and oncology practices in the Hamburg metropolitan area who are contractual partners of the UCC Hamburg also participate. This occurs when there is a treatment relationship with one of the patients being presented. All participants are bound by medical confidentiality.

Patients are presented by name at the tumor board meeting. Your consent is required so that information about your illness and your test results can be shared during the tumor board meeting.

Consent form for presentation at the UCC Hamburg tumor conference at the UKE

I have been informed and agree that my medical, social, and personal data may be transmitted to the UCC Hamburg at the UKE in a manner that identifies me, to the extent necessary to obtain a treatment recommendation from the interdisciplinary tumor conference. For this purpose, I release my treating physicians from their duty of confidentiality.

I may revoke this consent at any time with future effect by notifying the UCC Hamburg, without any adverse effects on my treatment. Any processing or transmission of my data that occurred prior to my revocation remains permissible.

Date: _____ Signature: _____

More information is available at www.uk.de/ucch. We would like to inform you here about the use of data in connection with the Tumor Board; more information on the Martini-Klinik's general data protection policy can be found here: www.martini-klinik.de/datenschutz.
